

The Eco-Matting Solution Provider
— Since 1993

We believe in the green and healthy environment starting at the clean and safe floor—and
RISMAT is your partner for such the environment.

RISMAT, an eco-matting solution company was established in 1993 in Hong Kong and entered into Shanghai, China in 1994. We have developed the two major concepts for floor pollution control system and occupational health & safety system for the past three decades, and continue innovating for the eco-matting system through our advanced research and high-quality manufacturing strictly accordance with ISO standards. Our eco-matting products are designed and built through the concept of safety, efficiency, eco-green, specialty, service and standard to meet customers' needs, which can be used at a variety of floor conditions such as high-end hotels, commercial & residential properties, factories, schools, hospitals & research labs and other public areas for floor pollution control and occupational health & safety systems. Our eco-matting products can bring full protections to your floors through a cost-effective way and multi-functional solutions, and they have been widely recognised and used today.
